Art Unit: 3693

1. Claims 68-94 which are new claims are pending in this communication filed 5/03/06 entered as Response After Non-Final Action.
2. Claims 68-94 are allowed.
3. The following is an examiner's statement of reasons for allowance: The following is a statement of reasons for allowance of Claims 68, 75, 80, 87, and 92. The prior art of record does not teach in claims 68 and 80 a non-variance-based method formula for solving a linear program for the current mark-to-market values of securities, a mark-to-future values, subjective prior scenario probabilities, benchmark growth rates, position sizes, lower and upper position limits, the portfolio unrealized loss or downside, the portfolio unrealized gain or upside, claims 75 and 87 a non-variance-based method formula for determining the price for portfolio insurance, and claim 92, a non-variance-based method of the upside value – λ (downside value), where λ is a constant indicative of a level of risk aversion. For these reasons claims 68, 75, 80, 87, and 92 are deemed allowable over the prior art of record, and claims 69-74, 76-79, 81-86, 88-91, 93, and 94 are allowed by dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The closest prior art Barr et al. (US 5,761,442) disclosed an optimized portfolio and an underlying performance benchmark portfolio of stocks.

Schirripa (US 6,282,520) disclosed an efficient frontier and the level of risk in a portfolio.
